Part 573 Safety Recall Report

Manufacturer Name : Nissan North America, Inc. Submission Date : APR 28, 2016 NHTSA Recall No.: 16V-244 Manufacturer Recall No. : NR

Manufacturer Information :

Manufacturer Name : Nissan North America, Inc. Address : P. O. BOX 685001 Franklin TN 37068-5009 Company phone : 800-647-7261

Vehicle Information :

Vehicle: 2013-2016 Nissan Sentra Vehicle Type : LIGHT VEHICLES Body Style : 4-DOOR Power Train : GAS Descriptive Information : This is preliminary information. Nissan is in the process of specifically identifying and confirming the affected population and will supplement the manufacturing range information when it is finalized. Production Dates : JUN 13, 2012 - APR 14, 2016

VIN (Vehicle Identification Number) Range

Begin: NR

Vehicle: 2013-2016 Nissan Altima Vehicle Type : LIGHT VEHICLES Body Style : 4-DOOR Power Train : GAS Descriptive Information : This is preliminary information. Nissan is in the process of specifically identifying and confirming the affected population and will supplement the manufacturing range information when it is finalized. Production Dates : MAR 06, 2012 - APR 01, 2016 VIN (Vehicle Identification Number) Range

End: NR

Begin : NR Vehicle: 2016-2017 Nissan Maxima

Vehicle Type : LIGHT VEHICLES Body Style : 4-DOOR

Population: Number of potentially involved : 3,177,645

Estimated percentage with defect : 100

escription of Defect : Description of the Defect : In the subject vehicles, a small number of rare unusual seating postures immediately upon e	

Part 573 Safety Recall Report 16V-244 Page 5 Occupant Classification System (OCS) to initially classify an adult passenger as a child or classify an occupied seat as an "empty seat." In both of such rare instances, the passenger airbag will be suppressed. If the vehicle begins driving while this condition is present, the current OCS logic will lock this classification until the vehicle comes to a stop and remains stationary for 12-13 seconds. In the case of a child classification, the current logic is designed to illuminate the Passenger Airbag Indicator (PABI) light, alerting the customer that the air bag is disabled. However, if the initial classification is "empty seat," the PABI light will not illuminate and there is no indication to the seat occupant that the air bag is suppressed. In both instances, this issue may cause the passenger airbag not to deploy as designed in a crash, increasing the risk of injury to the front passenger seat occupant. Nissan will also address a supply chain error which led to a small number of incorrect OCS control unit service parts being installed on certain Nissan Pathfinder vehicles during service. If this occurred, incompatibility may cause the OCS not to perform as designed and the passenger airbag not to deploy as designed in a crash, increasing the risk of injury to the front passenger seat occupant. FMVSS 1:NR FMVSS 2:NR Description of the Safety Risk : In all instances, the OCS may not perform as designed and the passenger airbag not to deploy as designed in a crash, increasing the risk of injury to the front passenger seat occupant. Description of the Cause : NR Identification of Any Warning that can Occur : NR **Supplier Identification : Component Manufacturer** Name : NR Address : NR NR **Country : NR**

Chronology :

See attached Part 573 chronology.

Description of Remedy :

Description of Remedy Program : Owners of the potentially affected vehicles will receive interim notification letters within 60 days, followed by final notification letters once the remedies are available. Affected owners will be advised that if they experience any issues with OCS to immediately contact the dealer for repairs. The remedy will vary based on the vehicle as described below:

The information contained in this report was submitted pursuant to 49 CFR §573

Part 573 Safety Recall Re	port 16V-244	Page
[
	Affected Altima, Maxima, Murano, Rogue, and Sentra vehicles will be remedied as follows:	
	1. Air Bag Control Unit (ACU) reprogramming	
	2. OCS Electronic Control Unit (ECU) reprogramming	
	Affected LEAF, NV200/Taxi, Pathfinder, Q50, JX35/QX60 will be remedi by replacing the OCS ECU.	ed
	This remedy will be offered at no charge to the customer. Nissan will include a statement in the Part 577 owner notification concerning reimbursement for the cost of obtaining a pre-notification remedy for th subject vehicles that are no longer under warranty. The statement will excluded for the subject vehicles that are still under warranty. Your offi will be provided with a copy of the Part 577 owner notification for appro-	be ce
